

# Stefano Carosio

*D'Appolonia SpA  
Research and innovation  
Division Manager*

Stefano Carosio areas of interest are Innovation and Technology Transfer. His specialty is to support industry, and in particular SMEs, in the product development cycle by identifying suitable technological solutions which provide both incremental improvements and breakthroughs to innovate products, processes or services. Overall Stefano Carosio has been involved as Project Manager and Technical Supervisor in more than 50 EC projects since FP4, mainly dealing with nano and multifunctional materials. He is member of the High Level Group of the European Construction Technology Platform and cover high level positions in several European Technology Platforms and initiatives. Because of the cross-sectorial and interdisciplinary experience he developed, Stefano Carosio is currently Italian Director of the ESA's (European Space Agency) Technology Transfer Network, dealing with identification of industrial needs, technology assessment and commercialisation.
