

Klaus-Michael Weltring

Personal data

Born: 15.9.1954
Place of Birth: Bad Rothenfelde, Germany
Citizenship: German
Family status: married, three children

Current positions

Since 1.4.2001 Managing Director of "Gesellschaft für Bioanalytik Münster e. V."

Other positions

1.8.2000 - Coordinator of the Münster proposal for the region contest
31.1.2001 "BioProfile" of the Minister for Education and Science of Germany.
2004 - 2008 Deputy Coordinator of the EU Network of Excellence Nano2Life and Leader of the ELSA Board
2006 - 2008 Chair of ELSA working group of the ETP Nanomedicine
Since 2006 Member of the Executive Board of the ETP Nanomedicine

Scientific positions

1.6.1983 - 31.7.1984 Postdoc at the Lehrstuhl für Biochemie der Pflanzen at the University of Münster.
1.8.1984 - 31.12.1986 Postdoc with Prof. Dr. H. D. VanEtten and Prof. O. Yoder at the Department of Plant Pathology at Cornell University, U.S.A.
1.1.1987 - 31.12.1988 Postdoc at the Lehrstuhl für Biochemie der Pflanzen at the University of Münster.
1.1.1989 - 31.12.1994 Assistant position at the Lehrstuhl für Allg. Botanik/ Mikrobiologie of Prof. P. Tudzynski at the Botanical Institute at the University of Münster.
1.4.1995 - 30.9.1995 Research associate position with Prof. Tudzynski continuing to work on the above projects.
1.1.1996 - 31.12.1997 Scholarship of the Deutsche Forschungsgemeinschaft to finish the Habilitation
1.1.1998 - 31.3.2000 Research associate position with Prof. Tudzynski continuing to work on own projects.
4.2.1998 Habilitation with *venia legendi* for botany.
1.4.2000 - 31.3.2001 Substitution of a C3 professorship position at the Botanical Institute at the University of Münster.

Gesellschaft für Bioanalytik Münster e.V.

The association Gesellschaft für Bioanalytik Münster e.V. was founded by the two Münster universities, local companies, the city of Münster, the Technology Park Muenster and scientists in November 2000. It serves as a central communication and information agency for researchers, companies, investors, institutions and the public interested in nanobiotech. Bioanalytik-Muenster simplifies consultations among all partners, promotes dialogue with the public, motivates interdisciplinary projects and ensures coordinated actions for developing and marketing of the Münster region as a leading nanobiotech location.

Dr. Klaus-Michael Weltring

is the Managing Director of Bioanalytik-muenster and for five years he was the deputy coordinator of the Nano2Life Network of Excellence and Leader of the "ELSA" work package in this network. Furthermore he co-manages the Round Table on Nanomedicine (FP7 CSA Project), which started at 1st January 2009. In addition he is a member of the Executive Board of the ETP Nanomedicine leading the ELSA workgroup of this platform. For the last six years he has been responsible for the function and marketing of the regional bioanalytics network including universities, regional development agencies, the Chamber of Commerce, companies and scientists.
