

# 20<sup>th</sup> ESPD Annual Meeting

12 – 14 May 2021  
VIRTUAL

## MD, PhD Verena Moosbrugger-Martinz

Verena Moosbrugger-Martinz studied medicine in Innsbruck, Austria and spent clinical and research exchanges in Thailand, Finland and Canada. Afterwards she completed her PhD with Sandrine Dubrac and Matthias Schmuth on the convergence of innate immune dysfunction and skin barrier abnormality in the pathogenesis of atopic dermatitis. During her PhD studies she developed interest into genodermatoses; she is now a staff member of the center of genodermatoses – disorders of cornification at Medical University of Innsbruck. She acted as tutor of the EADV training courses on genodermatoses in 2012, 2014 and 2018, and has headed the therapeutic patient education on atopic dermatitis since 2017. She is currently head of the Laser Clinic and will complete her residency in Dermatology at the Department of Dermatology, Venereology and Allergology, Medical University of Innsbruck in June 2021. Verena Moosbrugger-Martinz has authored more than 20 articles in peer-reviewed dermatological journals about atopic dermatitis, ichthyoses and other genodermatoses.
